

## PRODUCT SHOWROOM GREEN FF&E

# 5 AQUATICA

aquaticausa.com

Crafted from the company's AquateX solid composite material, the True Ofuro bathtub with a Tranquility heating system is fitted with recirculation and ozone disinfection features. As a result of the former, the Japanese-style freestanding element maintains a water temperature of 104 degrees Fahrenheit, eliminating the need to add hot water during use.

## 6 BUSTER + PUNCH

busterandpunch.us

A Buster bulb, which is an LED alternative to traditional filament options, illuminates this Heavy Metal pendant. With an E26 base, the bulb can also be used as a replacement for standard screw-thread incandescents. The fixture is offered in steel, copper and smoked bronze looks, as well as in matte black with matte rubber detailing.

#### 7 MICHAEL SANZONE STUDIO

michaelsanzone.com

Born during an artist-in-residence program at the Glenfiddich Distillery in the Scottish Highlands, the Whisky Cask series incorporates reclaimed barrels built from Spanish and American oak. The studio's namesake artist/founder drew inspiration from the wood used to make the casks to create the wall sculptures.

# 8 EUROFASE

eurofase.com

Halpern wall sconces team an LED-lit clear acrylic plate with an aluminum powdercoat finish. The acrylic panel, which can be custom laser engraved with text to create signage, slides onto the lighted metal base to form the piece.
