

INTRODUCING THE TRUE OFURO DUO BATH FROM AQUATICA

POSTED IN [PRODUCTS](#) ON 31 MAY, 2019

With its roots in ancient Japanese culture and an emphasis on delivering a relaxing full-body soaking experience, True Ofuro Duo bath is part of Aquatica's early 2019 collection and represents the only ergonomic two-person Japanese soaker on the market. Available with or without Aquatica's advanced Tranquility water heating and circulation system, this unique freestanding bath can also be outfitted with LED lights for a genuinely memorable bathing experience. From a fabrication standpoint, DurateX, Aquatica's composite material, provides the new True Ofuro Duo with a soft-to-the-touch velvety surface that is contrasted by a solid, one-piece construction; making it the perfect luxury freestanding tub for luxury homes, suites, and boutique hotel guestrooms alike.
