6. The **AQUATICA BATH** Emmanuelle 2 Black solid surface bathtub hints at the shape of a Victorian freestanding tub, reinterpreted with flair and charm. Now available in AquatX black graphite, this one-person tub features an integrated slot overflow for increased water depth and minimalistic appeal.

7. **AMERICAN STANDARD**'s Town Square S Toilet tank and bowl feature EverClean, a permanent finish that inhibits the growth of stain and odor-causing bacteria, mold and mildew on the surface. The toilet is engineered to produce a powerful flush and has PowerWash bowl-cleaning technology, which scrubs the bowl with pressurized water from the rim.

8. **MIELE**'s new Vacuum-Sealing Drawer is one of the only appliances that can combine vacuum and steam capabilities to make sous vide cooking – as well as vacuum sealing – easy and convenient. The drawer enables the user to control the sealing level and sealing duration, adjusting for delicate items such as fish or vegetables and performing a strong hold on meat that would benefit from locking in marinades or seasoning.

9. **INFINITY DRAIN** has announced a new clamping floor drain that has been redesigned to a more compact size. Measuring at only 3-1/4 inches in diameter at its narrowest part, the design allows for easier installation of a linear drain against the shower wall and eliminates the need for flooring materials between the drain and the wall tile.

10. **KRAUS** has launched the new-and-improved Oletto Kitchen Faucet Series, which consists of 360-degree swivel faucets with fast-and-easy, top-mount installation features. The series comes in four faucet models, including pullout, pull down, commercial kitchen faucet and bar faucet.
